According to www.history.com, Earth Day was founded in 1970 as a day of education about environmental issues, and Earth Day 2020 occurs on Wednesday, April 22—the holiday’s 50th anniversary. The holiday is now a global celebration that’s sometimes extended into Earth Week, a full seven days of events focused on green living. The brainchild of Senator Gaylord Nelson and inspired by the protests of the 1960s, Earth Day began as a “national teach-in on the environment” and was held on April 22nd to maximize the number of students that could be reached on university campuses. By raising public awareness of pollution, Nelson hoped to bring environmental causes into the national spotlight.

To learn more about Earth Day, click here.
Rod Butler has been City Manager of the City of Jurupa Valley since December 2019. He has nearly 30 years of local government management experience and previously served as City Manager for four California cities: Crescent City in Del Norte County, Patterson in Stanislaus County, Upland in San Bernardino County and Port Hueneme in Ventura County.

Mr. Butler earned a bachelor’s degree in Political Science from the University of California at Riverside and a Master of Public Administration degree from California State University at Long Beach. He is a member of the International City-County Management Association and the California City Management Foundation. Mr. Butler’s areas of expertise include economic development, budget and financial management, building and developing executive teams, and working closely with City Councils to identify key priorities and goals, then implementing effective strategies for achieving those goals.

Mr. Butler’s initial goals in Jurupa Valley include increasing the City’s long-term financial stability, selecting the City’s first in-house and full-time executive team, and providing key leadership to advance major capital improvement projects and economic development opportunities.
Interactive Map of open businesses

In response to directives from both Federal and State agencies, many restaurants have started to provide take-out, drive-through, or delivery only services. By working with the Jurupa Valley Chamber of Commerce, the City of Jurupa Valley can provide a map of restaurants and businesses in the community that remain open for business.

If you are an owner, manager, or designated representative of a restaurant or business here in Jurupa Valley and would like your respective business to be part of this map, you can access the map here. Once you’ve opened the map, navigate to the "Business Hours Form" button at the top of the screen. Please be sure to fill out every line in the form to the best of your ability. You’ll have to enter your address on the form twice and find your address on the map. Staff will then review your submission and approve it to become part of the map. Please contact us if you need help with this process.

How Was This Map Made?

This map was made by the City's Geographic Information Systems ("G.I.S.") team. G.I.S. is a database system that can be displayed as a map. If you’ve ever used Google Maps, Apple Maps, or the G.P.S. in your car, you’ve already used a G.I.S. The City uses a G.I.S. program called ArcGIS, which is a product of Esri - a technology company based in Redlands, California. The City uses G.I.S. to inventory infrastructure like roadways, flood plains, zoning and land use, sidewalks, traffic signals, stop signs, and other objects that the City is responsible for maintaining. To access more G.I.S. maps, please visit the City’s G.I.S. page.
The City of Jurupa Valley has launched the online portal for citizens and contractors to apply for a variety of permits online. The City uses the Accela software system to receive and process permits from the public. The Accela Citizen Access portal (“ACA”) allows residents and contractors to setup an online account, apply for permits, and track the status of their application throughout the review process. This powerful new tool allows residents and contractors to safely conduct important City business during the COVID-19 pandemic.

Since August 2019 Development Services has used Accela to track building, engineering and planning permits and entitlement applications as they are processed through the City. ACA was originally scheduled for deployment this summer; however, due to the COVID-19 pandemic, implementation was expedited to protect staff and the public. Development Services continues to strive to serve residents and the development community through digital permitting, plan check and inspection that allows the City to maintain operations while following CDC guidelines.

We've gone live

The City of Jurupa Valley will be live video streaming all meetings on our website. Please follow the link below to view from your computer, laptop, Ipad or cell phone. The meetings for City Council, Planning Commission, and Traffic Safety Commission (or other important public meetings) will on the website and accessible both during and after the meetings.

To view past and present meetings, visit our website.
Online Services

Did you know that you can get answers for many commonly asked questions and submit requests for service on our website?

Visit the City of Jurupa Valley’s website to schedule a building inspection request, report a code violation or general concern, create a Public Works service request, submit a Public Records Act request and much more!

Once on the City of Jurupa Valley’s website, navigate to the “How do I” section and you will find links to request services and find answers to questions.

COVID-19 Resources and Information

Did you know you that the City of Jurupa Valley has a dedicated webpage with resources and information regarding COVID-19?

This webpage is a useful tool for residents and businesses looking to find information specifically related to the City of Jurupa Valley.

Visit the City of Jurupa Valley's COVID-19 webpage at: www.jurupavalley.org/covid-19 or by clicking here.
Unfortunately, many individuals and families are being impacted financially by the COVID-19 pandemic. The City’s contract homelessness services provider, Path of Life, also manages a short term rental and utility assistance program. Jurupa Valley residents that meet certain income criteria can apply for these funds to receive a one-time payment to help pay off delinquent rent and utility bills, avoid eviction, and get back on their feet!

The City has imposed a temporary moratorium on evictions. However, these funds can be used to proactively pay down your backlog of rent payments.

Healthy Jurupa Valley is a collaborative effort of the City of Jurupa Valley and HJV backbone agency Reach Out. Our work is accomplished through five Action Teams. Each Action Team is co-chaired by wonderful volunteer leaders from our community, and is focused on goals set by community members, for community members.

Healthy Jurupa Valley’s (HJV’s) monthly community meetings are hosted by Josie Gaytan, Reach-Out HJV coordinator, where all Jurupa Valley residents are welcomed to attend and engage with their fellow community members. The goal is to keep all attendees entertained and fully informed on what HJV is all about!

For more information about meetings, please visit: [www.jurupavalley.org/healthlyjurupavalley](www.jurupavalley.org/healthlyjurupavalley)
WASH YOUR HANDS
Wash your hands with soap and warm water regularly.

COVER A COUGH OR SNEEZE
Cover your cough or sneeze with your sleeve, or tissue. Dispose of tissue and wash your hands afterward.

DON’T TOUCH
Avoid touching eyes, nose or mouth, especially with unwashed hands.

KEEP YOUR DISTANCE
Avoid close contact with people who are sick.

STAY HOME
If you experience respiratory symptoms like a cough or fever, stay home.

GET HELP
If you experience symptoms of COVID-19 (cough, fever, shortness of breath), call your health care provider or local health department before seeking care.

BEAT THE HEAT

- NEVER leave children or pets alone in hot vehicles - if you see a child or pet in a hot car, call 911 immediately.
- Check on family members and neighbors, especially those who are older.
- If you have to be outside, drink plenty of fluids to stay hydrated and take frequent breaks in the shade.
- Know the signs of heat related illnesses.
- Avoid high energy activities
- Check on your pets and bring them inside and provide them with plenty of cool water
