Subject: Opposition to Proposed Self-Storage Development Near I-15
Date: Thursday, February 5, 2026 3:44:02 PM

City Council members,

I am writing to formally express my strong opposition to the proposed self-storage development near I-15.

This land should remain recreational open space for our community in Jurupa Valley. It is one of the few remaining areas available for outdoor use, community gathering, and connection to the natural environment. Converting it into a self-storage facility would permanently eliminate these benefits and negatively impact the quality of life for current and future residents.

Additionally, I am deeply concerned about the environmental consequences of this project. The area contains sensitive habitat that, once destroyed, can never be restored. For this reason, I strongly demand that a **full and comprehensive environmental review** be completed before any approvals or construction move forward. Anything less would be irresponsible and dismissive of the long-term ecological damage this project may cause.

Development decisions should prioritize community needs, environmental protection, and sustainability—not short-term commercial gain. I urge you to reject this proposal and preserve this land for recreational and environmental use.

Thank you for your time and consideration.

Sincerely,
Mrs Moreno
