Subject: Oppose Camino Terrace Project

Good evening,

As a resident of Jurupa Valley near the proposed Camino Terrace Project I wanted to voice my strong opposition to the project and I urge the city to reject this project. This project makes our neighborhood less safe as well as putting the proposed residents of the project at risk. We as a neighborhood enjoy the character and quality of life our neighborhood and our city provides and hope that this development that will negatively effect our enjoyment of our homes and community will be rejected in the best interest of our city and its residents.

Subject: Wakeland Camino Terrace Project

I oppose the Wakeland Camino Terrace project. I object due to safety concerns. I am a local home owner and the safety of that entrance is extremely dangerous for incoming and outgoing residents. I have lived on Canyon Terrace Drive for 30 years and that corner off of Camino Real and Canyon Terrace is of high concern due to cars exiting or entering. The proposed project. It's a blind hill when traveling westbound especially at sunrise and sunset. Its a huge safety issue for local residents, children and handicapped people.

Thank you for your time

Reginald Howard

Subject: Camino Terrace Project

Hello!

I am writing to state I oppose the Camino Terrace Project and ask for the City's rejection of Wakeland's proposal. I am opposed due to safety concerns, as well as concerns with structural violence the project may cause for the future residents.

Best,

Kanya Chrisco
