Subject: CAMINO TERRACE PROJECT

To whom it may concern,

I am writing today because I am a concerned individual who lives on Mountain Shadow Dr city of Jurupa Valley, I have lived here since late 2018 with my family and we've loved it ever since we moved out here from Orange County but I have been devastated since finding out that there will be a apartment complex built on the hill just next to my home! Not only will it be an inconvenience of traffic for my family and I but it is also a fire hazard to all the homes that are currently being occupied by families. Think about the people that live in these neighborhoods who just wanted quiet and space away from everyone else. If one wildfire breaks due to those apartment complexes you're looking at many individuals who will loose their homes giving the city of Jurupa valley occupancy, and I know that may seem little to you guys but to us these will be our forever homes something that will be passed down generations. So I am here today saying I OPPOSE THE CAMINO TERRACE PROJECT DUE TO SAFETY CONCERNS and please reject Wakelands proposal !!
